

Dear Friends:

Atascadero, California, December 1, 1945

In our Aug.-Sept. Beacon Light Herald we urged unity among professing Christians and professing Americans. I have before me a letter from a fearless Israel preacher, Conrad Gaard, of Tacoma, touching on my statement; I quote from his letter:

"I quite agree with you that 'the fight is on', and that we must be prepared to face the issue at all cost. However, this diabolical attempt to foist an alien program and ideology upon our nation and our people is merely another fulfillment of prophecy, for the whole Satanic conspiracy is clearly and positively revealed in the Scriptures.

I often think of your statement and warning that those who are struggling to "Save American Freedom" and preserve "Our Way of Life" must stand together, and I hope and pray that some way may be found to bring all those who stand for truth and righteousness together, but frankly I am not too optimistic.

Before there can be real unity of purpose and action, there must be agreement on, at least, basic principles, for only then can there be a constructive program around which all can rally. Today, all too often, about the only thing which unites the enemies of Communistic Internationalism is fear and hatred of those who are striving to make America over after an alien pattern. Before we can hope to accomplish very much, in my opinion, we must define the basic principles for which we stand, and unite on a constructive program around which all patriots and believers can rally. In the meantime, we must continue the struggle so that at least "a remnant" can remain faithful."

Sad as it is, far too few Christians know what is basic Americanism and far less know what is basic Christianity. Not one half of 1 per cent of the preachers have the faintest concept, leave alone the laymen. I spent a couple of hours debating with a minister lately, and he jumped around like Paddy's flea, quoting this Scripture and that Scripture; and he had no more idea of God's plan for humanity than a Hottentot or a Chinaman, in spite of the fact that he has read my literature for years. I have tried to pound into you that God has a definite plan for humanity; but you will never discover that plan by trying to make the Bible fit into a theological pattern. I have repeatedly drawn your attention to several basic books, such as Digest of Divine Law, by Howard Rand, Clark's Biblical Law, and God's Great Plan, which give a sort of airplane view of the Bible. Christendom is in a hopeless mess because Christians say God did everything, or Jesus Christ did everything, and we don't have to do anything.

I claim we are saved by obedience to law: such a howl goes up! There is an old axiom, as above, so below. I don't believe anything in the Bible, simply because it is in the Bible, I do not believe in the infallibility of any written word. Our Bible has been corrupted; there are big gaps, caused by whole books being left out. God knew that He could not trust humanity with the written word alone, for He knew that sooner or later Satanic forces would corrupt it; hence the need for new Bibles periodically. Our present Bible is not the first, and it will not be the last.

I am of an inspirational type; I am often told to do things that do not entirely agree with my reason, and so I say, 'If this thing is of God, give me a witness.' I immediately look into my chart for confirmation; and never yet have I found one to contradict the other. Herein lies the great value of astrology, in the hands of a sincere God-fearing man or woman. Commercialized astrology today is used just as the Bible is used by the theologian: to fit in with the individual's preconceived ideas. But, are you going to reject astrology because of tricky astrologers? Are you going to reject the Bible because man has monkeyed with it? Thousands of preachers in America today have gone Communistic, who twist and turn the Bible to put over their communistic philosophy. Only yesterday I read Elizabeth Dilling's latest release; and every preacher in the land ought to read it, especially Part 2, "Character Assassination, Inc." Send for a copy, to Elizabeth Dilling, Room 708, 8 S. Dearborn St., Chicago 3, Illinois, and enclose 50¢; and it is well worth it. And then you will get the point that I am driving at. As Conrad Gaard says, we must know what is basic, before we can unite; how right he is.

The main theme of the Bible is the kingdom message; it runs from cover to cover, and it has to do with the redemption of Israel, a people. And you can see quite clearly that the only way that Israel America can be saved is by walking in the statutes and judgments of God Almighty. I am disgusted with the low standards of salvation as preached in the churches; I believe that individually and nationally we must work out our own salvation in fear and trembling, as St. Paul so aptly puts it. This preacher friend of mine said that God had saved him; I told him I didn't believe it, because if so he had done a very poor job. He said he accepted the teachings of St. Paul, and he quoted him by the yard. I asked him what he was going to do with Phil. 2:12, wherein St. Paul said "but now much more in my absence, work out your own salvation in fear and trembling." He argued that Peter may have said that but not Paul.

I asked this same preacher friend what he was saved from; he said he was saved from sin. I asked "What is sin?" He answered correctly, "Sin is transgression of divine law;" and then he said "I am saved from transgression of divine law, or rather the penalty of it, for the wages of sin, transgression of divine law, is death; but in Christ we have eternal life." I told him he was an absolute slave to his carnal self, his eating and drinking is dictated by his carnal sense of taste. For years I have told him he was lacking in Calcium; today he said "I went to the Dentist and he told me I was lacking in Calcium." I said "Why didn't God put more Calcium in your system when you were saved?" Because when I drew his attention to Calcium foods he said "They don't taste good." His diet consists largely of denatured foods.

Unless you obey the laws of diet you are going to be sick, I don't care if you are saved fifty times over. In the last 50 years I have observed thousands of preachers, and I saw that unless they obeyed the laws of diet they suffered the same as anybody else. That's divine law. This preacher friend is a very inveterate smoker; he is an absolute slave to it. And my psychic ability tells me that if you took sex out of his life his salvation would get an awful jolt. Sense eating, smoking and sex belong to the carnal man. Now I would like to draw your attention to I John 3:9: "Whosoever is born of God does not commit sin, for his seed remaineth in him." In other words, he rises above the carnal instinct of sex. Is that clear?

You drive your car down town and go through a red light, and they will slip you in jail for traffic violation; you have broken the law. "But," you tell the Judge, "I am saved; I am above the law," as this preacher friend told me. And the Judge says, "Ten dollars or ten days." He is not impressed with your salvation, and being above the law. I said to my preacher friend, "Being above the law, of course you could walk off a ten story building and suffer no harm, because the law of gravity means nothing to you." My friends, you, like thousands of other preachers, are kidding yourselves; you are an absolute slave to your carnal self, and of course blinded by it; for you can never see and understand spiritual things while a slave to the lower or carnal self. That's law. I believe I am correct in saying that this man's authority, St. Paul, was a celibate, and taught celibacy; but St. Paul also realized that some people cannot possibly become celibates without going all to pieces.

You see, the ladder of life has many rungs; and you can't jump from the first to the last, you grow - you unfold - you evolve. Yes, the story of the Bible is a story of evolution, onward and upward back to God. But you will never understand the Bible and the fact that it teaches the kingdom message, reincarnation and evolution, as long as you have a sectional view of it. My good friend Mr. Ackley gave a fine talk in Los Angeles last June, and it is the finest confirmation of evolution I ever listened to. I got him to write it out for our coming book, 'The Bible Speaks to America'. His title is "God's Blueprint of the Ages"; but I see the story of evolution in this fine article.

My preacher friend says, when I mention evolution, "Do you believe we came from monkeys?" I said, "What has that to do with evolution?" He answered, "Evolution means that we descended from monkeys." I replied, "I don't know of anything more stupid than a preacher, or perhaps I should say a theologian; you have in mind the Darwinian theory, haven't you?" and he replied "Yes." I answered, "My friend, this has absolutely nothing to do with evolution; it's monkey-business. The Bible doesn't teach monkey-business, and even if it did it isn't true to life. The Anthropoid Ape belongs to the human family; they are degenerate human beings, and they are pre-Adamic, going back perhaps millions of years; but they belong to the human family and are not animals. The anthropoid ape is the only so-called animal that has an appendix; they degenerated to an animal-like existence through sex abuses. You will find those monkey traits in sexual degenerates and dope fiends; in other words, enslavement by the carnal self.

My preacher friend said, "If your theory is correct regarding sex, the human race would die out." "No, my friend," I answered, "not as long as you exist the race would never die out, because your sexual impulses are too strong. You are married, and you think that gives you a right to violate spiritual law; but it doesn't." I have practiced astrology for around forty years, and during that period more than one preacher's wife has come to me and said "My husband is like a beast sexually; he cannot be satisfied." Celibacy is not for everyone, and the human race will not die out for quite a while; so my preacher friend don't need to worry. But if you want to see and know God you must put the carnal self under foot; that's law. God will allow you to be a slave just as long as you want to; there is no compulsion about it. But you and I have got to go through the same tests that Jesus went through; these tests are implied in the Bible, but if you want them in all their details read the Aquarian Gospel and you will discover that Jesus was saved by overcoming the carnal self. There is a gap of 18 years in the life of Jesus, in the Gospels; what was He doing? The Aquarian Gospel of Jesus the Christ fills in that gap in part, telling where He traveled, in India, Persia, Greece, Tibet and Egypt; and then it shows the various tests He underwent in the various mystic schools. Every preacher ought to acquire a copy of The Aquarian Gospel; and he will find material left out of the King James version.

I think the Good Book says "to him that overcometh"; my study of life tells me that life is one big battle against the carnal self; that my lower or carnal self is the biggest enemy I ever met or ever will meet. He that ruleth his spirit is better than he that taketh a city. In other words, if you are master of your lower self, you are master of the universe; and that's why we refer to Jesus the Christ as The Master, which He was, indeed. He went through every known test, and passed successfully; and so must you and I; that's the pathway of evolution, of unfoldment, or growth. Jesus came to earth to prove that it could be done; and He was the first one that made the grade. And Jesus Christ doesn't save anybody; it is the Christ in you that must overcome the carnal or lower self. I know preachers who have committed about every crime in the calendar, including murder - but they are saved.

I spent nearly three months in the Los Angeles Co. jail, and associated with two outstanding murderers; they finally escaped on technicalities. One sent poison through the mail to his rival; he was a church trustee. The other was a church organist, charged with murdering his mother and father and, I believe, his grandmother. But they were saved. One of the most cold-blooded murderers I met there was a Negro; very likeable personality but very ignorant. He shot a man in cold blood; but he soulfully told me that he was saved; Jesus had saved him.

Among preachers I have met have been some of the most unmitigated liars I ever knew; some were guilty of petty and grand larceny. Yes, and some of these men are preaching the kingdom message; but preaching the kingdom message is not enough; it is fine as far as it goes. And so my preacher friend is still struggling with his carnal self, but won't admit it. The only difference between this preacher friend and me is, I admit it and he don't.

The Divine Pattern, Jesus the Christ, had learned the lessons of life, He had overcome; and so, was Master. And you and I must do the same. My study of life convinces me that God knew what He was talking about when He said, If ye walk in my statutes and keep my judgments. I don't care how much you believe, if you are a slave to the carnal self, eating, drinking, smoking, sex, you are not saved. Salvation comes through obedience to law; it is true in material life and it is true in spiritual life. It is a tremendous job, and it takes many incarnations to do the job. Jesus must have had more than one try at it, because He said, Before Abraham was, I am. I am convinced that He had come back many times as a prophet; the last time He graduated.

There are many books I could recommend in following out this theme; Max Heindel's "Cosmo-Conception" will fit in many missing links. Dr. Curtiss has done much research work along this line, and we suggest you read "Why Are We Here?" and "The Truth About Evolution and the Bible"; and last, but not the least, "The Pattern Life", all by Homer Curtiss. See our Book List, in AMERICA SPEAKS, for prices.

When we start making extravagant statements, we should be prepared to back them up. but the theologian is as loose-mouthed as a politician, they both suffer from a diarrhea of words of which they haven't the slightest understanding. I don't claim to be saved, for I know it is not true; periodically I get a licking from my lower self, much to my disgust; but that's no reason to quit, for we have to learn all of life's lessons.

But I have gotten away from my original theme, namely, unity of purpose and action. When we have anti-Christ principles taught by Israel or kingdom preachers, it is something to worry about. Anti-Christ doctrines are put so subtly that only a man or woman of keen spiritual insight can detect them; for instance, Union Now is sponsored by many kingdom preachers, and even Technocracy has been endorsed by kingdom preachers on the Pacific Coast. Union Now is favored by all Communists; it is their program; it is the anti-Christ in action. A few years ago, I think it was in Portland, kingdom preachers wrote to the President endorsing Union Now. They sincerely believed, as does Col. Wright of Vancouver, that the United States is going back under the Union Jack. To me, that is treason, and I charge them with treasonable conduct. And yet they claim to be Americans and Christians.

I would rather die than go back under the Union Jack; I was born under it, and lived under it for 20 years, then 10 years in Canada, and now 30 years under the Stars and Stripes. You now have some idea of how old I am. The point is, I am in a position to know from actual experience about British rule, Canadian rule and American rule. Those in favor of Union Now, who are professing Christians, don't realize that Israel Britain is in the same position as the remnant of Judah at the time of Judah in Jerusalem. You recall that Judah took for his second wife a Canaanite or Negro woman. That was the beginning of the Jewish race, there were no Jews prior to that. True, Judahites were nicknamed Jews, but I am speaking of the Jews that we have in the world today, brought about by the mixture of Judah and Negro blood; that's the modern Jew, the Canaanite.

Did you know that 80% of the titled people of Britain have Jewish blood in their veins? And that's why I say Israel Britain is doomed, and Israel America must cut all connections with Israel nations who are too far gone for redemption. The whole of Europe, which includes many Israel nations, has gone Red; the Red Internationale was sung in British House of Parliament when Attlee took his seat as Premier in the House. And yet some of our dumb Israel preachers want us to unite with this! Israel Britain is absolutely controlled by the Canaanites who walk in the house of the Lord.

When Thorkelson, of Montana, was in Congress, he inserted in the Congressional Record a list of the titled people of Britain, and 80% of them had intermarried with the Jews. A copy of this Congressional Record was seized by the FBI when I was arrested. So Union Now means taking us over, lock, stock and barrel, by the anti-Christ, Canaanites. The anti-Christ has many organizations, of different grades, all leading to the same results; and I place Union Now, Technocracy, Ham and Eggs, all in the same boat. What's the use of condemning anti-Christ in one breath if you endorse him in the next by preaching his doctrines?

So we must unite on fundamental Christian American principles; and there cannot be a united Christian movement until we define our terms: what is Christian, and what is American? The average American is too lazy to find out and the average preacher is too much enamored with sensationalism to deal with facts. But what burns me up is the slams of the preachers, including Israel preachers, who should know better, against me as an astrologer; in fact against astrology. They say they can't endorse it because it has been dragged in the mud and the mire. May God help us! If Christianity hasn't been dragged thru the mud and slime for centuries, I must be dumb; but do you condemn Christianity because it has been perverted? As long as you have only one string on your harp you will never play a successful tune; God has given us astrology and the Bible in Stone with which we may check the written Bible. There are many references to witnesses, and if a statement in the Bible is true you will find that God has another witness to that truth. God always speaks twice; He has not left us with the written Bible alone, because He knew human nature and what would happen to the written word eventually.

and collectively we, as a nation, suffer disease because they violate the laws of diet; their

I know I have covered a lot of ground; but we have got to cover a lot of ground before we separate the wheat from the chaff, because more than 90% of what we accept for gospel truth is chaff; tares, lies and half-truths. And so the first thing to do is for those who are preaching the Kingdom message to clean house; cease to endorse anti-Christ organizations, individuals, movements and books. Look what happened to poor King Solomon when he imbibed of the heathen philosophies because he married heathen women! We all think that only a man can impregnate. Physically that's true; but no spiritually-minded man can have sexual intercourse with a woman with an atheistic concept of life without imbibing her philosophy. Every time he goes in unto her she impregnates him through the astral body; and finally he becomes saturated, and the light goes out. My friends, that's law; you can theorize all you like, but that's what will happen every time, as it did with Solomon, who lost all his wisdom and understanding because he cohabited with many heathen women. Friends, the Biblical law about adulterating or mixing is something you can't laugh off.

I used to think that much of the Old Testament was unreasonable; I didn't understand. All of God's laws are reasonable and just and perfect; and you walk in His statutes and judgments or suffer the consequences, just as Solomon did. Solomon was the most outstanding man up to his time; and look at the pitiable object he became in his last days; building temples to heathen gods. And that's what our preachers are doing today. I hope you will give this message prayerful consideration; not that I claim to be infallible, I am not. To sum it up, before we can unite on a common purpose we have all got to clean house. I have got to do my house-cleaning, and you have got to do yours. When we have cleaned house, spirit recognizes spirit and unity is automatic; we shall be of one accord. . . . After reading over the above, I find a few missing links. I said Jesus don't save anyone; that's true, you are saved by the Christ principle within; the Christ in you is the only thing that can save you from your carnal self.

Now regarding unity among kingdom preachers; there can be no unity as long as certain Israel preachers believe we are going to be taken over by Britain — not only believe that, but they are working toward that end. This is treasonable conduct, subversive; anti-American. In the December 1940 Beacon Light we published a letter from Lt.-Col. J. G. Wright, Secretary of the British Israel Association of Greater Vancouver. It is a short letter, and I am quoting it herewith:

Mr. William Kullgren, Atascadero, Cal.

"Vancouver, B. C., September 9, 1940.

Dear Sir: Will you please discontinue sending your pro-Nazi magazine to this office? I wanted to tell you why but I find the only language that could do so successfully would be profane, and I do not use that. I have taken the necessary steps with the North West Mounted Police to have banned any circulation you may have in Canada of your destructive anti-British magazine. Yours sincerely, J. G. Wright, Secretary."

Now Wright is preaching the Israel message; but can you expect me to unite with a man with ideas like that? Canada and the United States are going to be one nation, but not under the British flag. Wright has a feeling of contempt for anything American, as expressed in a recent letter from him. Col. Wright may be sincere, but he is a typical Johnny-Bull Britisher. And so, in this connection, I would advise you to read some of our back numbers; only a few remain of some of these precious numbers: October '39, in which we published a letter from Col. Wright; the next, November '39, with an article by Mr. Ackley, "Was Christ a Communist?" And in this same issue I crossed swords with Wing Anderson; I am including this because of the widespread circulation of his "War's End" and the great number of letters we have received relating to Wing Anderson. Anderson's writings are not Christian, and he doesn't profess to be; and they are not American, for all his bouquets are for bloody Russia. Christians he could and would endorse must be of the Stanley Jones and Kagawa order. Incidentally, these are the types endorsed by Theodore Heline, who wrote a beautiful eulogy on Kagawa; I think the title was "Kagawa, a Saviour Type." Also read his booklets on Russia; then see if you can find any confirmation in your Christian Bible to support Heline's statements.

In the December 1940 issue the leading article is "British-Israel Tolerance (?)", in which we quoted this letter, telling me he had taken the necessary steps to have The Beacon Light banned from Canada. Americanism he brands as pro-Nazi; in other words we must agree with everything that Britain does or it's pro-Nazi. That's the Communist line of expression. There are only a few of this number left, about six, I believe. Would suggest also that you read the June '41 Beacon Light, "Israel-Britain"; this number also contains "British Secret Service Report" which gives confirmation of all we have said about Israel-Britain; out of their own mouths they are condemned. In the September '41 issue is the article, "The Anglo-Saxon Federation of America", also "Astrology Prostituted". Both of these articles have a bearing on the above subject. I am going over this, because many Israel preachers have said what Conrad Gaard has said, but they have done nothing to define just what they mean.

There must be a cleavage in every organization in America before this fight is through. There are three or four groups in which I am particularly interested as to house-cleaning. The first is the Kingdom preachers; second, astrologers; and third, leaders of the healing schools, particularly naturopaths and other drugless healers; I see no hope for the allopathic group as such, they are like the Irishman who said, "Shure, an' my future is all behind me." The healers of tomorrow will be the naturopaths, there is no question about it; and one of the best in the country, I consider, is Shelton of San Antonio. That's why we print some of his articles whenever we have space. The Spiritualists also need a spring-cleaning, but that's not my meat; I only contact them occasionally. I have some very fine friends among them.

Many well-meaning teachers plead for unity through compromise. That isn't unity, that's surrender. Compromise has been the curse of the ages; so many of our leaders follow the path of expediency. If you are a real teacher or leader your job is to proclaim the gospel truth as it pertains to your particular field. That will quickly draw the enemy's fire. Jesus knew that, and that's why He said, I come not to bring peace, but a sword — the sword of truth, which He knew would make the anti-Christ element mad. And if you preachers are not drawing the enemy's fire, you had better quit your job, because you are not effective. A real preacher is like a soldier; he will get into conflict with the enemy. It is a dangerous job to be engaged in, but you are a nonentity unless you are engaged in it.

When I was arrested and thrown into jail, my Israel preacher friends all ran for cover. Rev. Philip Monson did write an article in my defense; and that old saint, Paul Ziegler of Washington was an angel in disguise during the trying days at Washington. We did not agree on points of theology, but he certainly was very Christlike in his ministrations to me and my wife. After all, it is not what you believe, it is what you do.

This message is going to stir up the elements, no question about it; but if our preachers and leaders are going to work for Union Now, and for going back under the British flag, it is about time we found it out, because they are traitors to the American flag and the Republic for which it stands. There is no animosity in this message, it is simply factual; the time has come for every Christian American to stand the acid test. You can't be true to the American flag and follow the anti-Christ British trend, which now is plain enough for anyone to see. And if you want further confirmation, read The Patriot, put out by the Boswell Publishing Co; a small handful, mostly army and navy officers are bravely trying to expose the anti-Christ rule of Britain. Too bad Col. Wright doesn't subscribe to this patriotic journal, for they are confirming all that I am saying about Britain; everywhere signs of degeneracy. They are now ready to Communize everything in Britain; is that what we should unite with? We are now asked to pay the bill of communizing Great Britain; that's what the British-Israel element are working for, that is, for the United States to go back under the Union Jack. They are too dumb to realize that England has long since surrendered her Israel principles as the remnant of Judah did in Jerusalem about 600 B.C., when the modern Jew came into being. Where do YOU stand in this fight? Personally I belong to no organization that hinders me from preaching the whole gospel of truth; can you say the same?

Jesus said, Seek ye first the Kingdom of God; another time He said the kingdom of God is within you. This is in line with my theory that it is the God within, when it breaks through and conquers the carnal man, that saves you and me. He didn't say anything about God up in the skies nor anything about any outside force; but 'seek ye the kingdom, and the kingdom is within. Until you and I learn that lesson, we shall never know God, and we shall never be saved; because it is the God within and not the God without that saves you.

THE LUNATION OF DECEMBER 4, 1945

This lunation has Pisces rising; and so we have common signs on the angles of this chart. This tends to a nervous, restless, fearful attitude of mind; and this is augmented by the iconoclastic Uranus in the 3rd, the house of lower mind. And on the other side we have Sun, Moon and Mercury in the 9th, right in opposition to this Uranus. This represents a tremendous struggle between the higher and lower mind of the nation; individually, and nationally, or collectively, it means the struggle between two contending forces of different ideologies. People will be jittery, unstable; the doctors will find themselves with a lot of neurotic patients; mental cases will increase, and much sickness will prevail that no medicine can cure, for the trouble is mental and emotional rather than physical. Many will depend more upon stimulants than body-building foods. Again let me urge you to get the Kelp-eating habit; it will do much for your nerves, especially if your eyes bother you.

We may expect some bitter legal and religious controversies, for the 9th is the house of religion and law and philosophy; but the 9th house also represents foreign countries. The 3rd house represents our near neighbors, and some difference of opinion is likely to come up with a close neighbor, possibly Mexico. This month Russia will stand revealed as anything but an ally and friend. I have been ridiculed and condemned for many years for pointing out, astrologically and biblically, that Russia was not to be trusted. Russia, under the new regime, is not and never has been our friend, in spite of the beautiful eulogies by some of our astrologers and metaphysical idealists; and we are approaching a very definite all-out clash with Russia and her allies. Such being the case, it would be the part of wisdom to recognize facts, and prepare accordingly. The fallacy of world peace will be very evident; only the Prince of Peace can bring peace to this law-breaking nation. The violation of spiritual law has produced the present day chaos; the 'get saved' philosophy of the churches has done much to disarm the people, instead of teaching them that salvation comes from obedience to law. They leave their salvation to the Man Jesus; as a result nothing is done, for as St. Paul tells us, we must work out our own salvation, in fear and trembling.

That statement is definitely in harmony with the laws of nature, the laws of God; for after more than 50 years of study, I do not find professing Christians, not even the preachers, have any higher standard of ethics than those who do not make this claim. They say they are above the law; but my experience tells me that they are subject to the law; they suffer sickness and death when they violate Biblical laws of diet; their gardens and farms and orchards suffer disease because they violate the biblical laws of agriculture; and collectively we, as a nation suffer war, internal and external, because

206

we do not walk in the statutes and judgments of the Lord. This subject of law violation comes up no matter what I am discussing, for I know it is the fundamental cause of all our suffering.

One should use a great deal of care in launching new enterprises, with this vicious combination of the 3rd and 9th houses. Another thought; the 3rd and 9th houses are houses of travel, and it indicates some kind of crisis in relation to travel, with a great increase in accidents; plane crashes will make big headlines. Many of these accidents will be the reflection of the nervous tension of the drivers, especially among drivers with Sun or Moon in the common signs, Pisces, Gemini, Virgo and Sagittarius, but more especially the Gemini and Sagittarius.

The press will be full of sensational stories; the subversive press will run at high speed. Jupiter in the 7th is ordinarily a good thing; but we find it adverse to Saturn in the 5th; another indication of serious problems concerning foreign countries. The motion picture industry will feel the force of this combination, and the field of entertainment as a whole will suffer losses, financially and through death. There is possibility of a disaster which will involve children, and another indication that our juvenile delinquency problems are a long way from being solved.

Venus in the 8th does point to some relief in taxation; much of that relief will be brought about by the cutting off of useless Federal agencies. All in all, this lunation points to the necessity of going slow and being sure that when you make a move your feet are on solid ground; for instability will be the keynote of this month, especially on and around the 6th and 7th, then again around the 18th and 19th, and the 28th and 29th. The year will close with considerable sickness as the Sun comes up to the affliction of Neptune. Christmas will not be what millions had planned, a time of peace and good will; instead, there will be a feeling of insecurity, fear and apprehension of the future. Venus in good aspect to Jupiter over the holidays indicates much generosity. Be temperate in your celebrations; for the indications are that doctors and hospitals will be swamped with emergency cases, on the evening and night of Christmas; the early part of the day is the best. An abnormal amount of drunkenness is indicated.

Now, the antidote to the indications of this chart, is to rise above it; refuse to be fearful, you don't have to be. God is in his Heavens, and He will take a hand at the proper time. Of course, if we as a nation call upon Him, we get the relief before the climax comes about. But praying to God is not enough, you must walk in His statutes and judgments; God works through evolution, and your evolution depends upon obedience TO THE LAWS OF GOD. If you want to be a law-abiding citizen in the kingdom of God you must obey His laws; those laws are the statutes and judgments of the Old Testament; 'if ye walk in my statutes and keep my judgments', says the Lord, 'I will guarantee certain results. You will have no sickness, no strife, no famine; you will not be at war.' Don't you think that's good pay for obedience to the laws of God?

Read the ups and downs of the children of Israel, and finally of their being taken into captivity by the Assyrians because they thought their ways were better than those of the Creator. Why did God blot out the pre-Adamic race? Because they were not obedient to His laws. And our present disobedience will mean the blotting out of two thirds of the population of the world; after which the remaining third will get it through their thick heads that God knows best and that they must walk in his statutes and judgments.

Early in '46 we hope to present to you the book, 'The Bible Speaks to America'; this is a tremendous undertaking on top of the doubling of the size of the paper; but it must be done. The people of America must be shown that they can expect no relief until they work in harmony with the divine blueprint; and you can only be above the law by obeying it; 'if ye walk in my statutes, and keep my judgments.' There is no salvation outside of that; nature does not contradict itself; the laws of nature and the laws of God are one and the same.

I strongly urge you to stock up on staple foods, because we are now approaching the showdown, and people in large cities will be in a bad way unless they have an adequate stock of staple foods. Every one of you should have a reserve supply; first, of Kelp, because it is the richest food in the world, containing eight minerals. It alone has more than doubled my vitality, in spite of the heavy strain I am under. You should have a good supply of dehydrated vegetables, especially Vegetable Puree Concentrate, Onion powder, Rice Polish, Rice Bran, Turnip Leaf Powder and Joyana. Even without strikes there is going to be a scarcity of some items of foods, due to the tremendous quantity being shipped over seas. A good supply of honey; we have a small quantity on hand, but it can only be included in freight shipments, that is, where you order a case of 4 1-gal. jars of different items. And we will pay freight charges on orders for California. You can live indefinitely on these items if you have to, as they contain all the essential elements of body building.
